How is a jewel made?

This tuto gathers different jewelry techniques:

- hammering metal,
- transferring a template on a brass plate,
- sawing with a boc-wire, drilling metal,
- making rings with the cannetille technique
- soldering an ear stud...

As for all the techniques we show you, don't forget to protect yourself with gloves, a smock, a mask... and watch your fingers!

You will need patience and practice to make these hammered dangling earrings!
