

PURECRYSTAL CRISTAL CRYSTAL BLUE AND MIYUKI DELICAS MULTICOLORED CABOCHON BRACELET

By : Tiffanie Perles&Co

Easy

4h

How to make a simple multi-turn bracelet with Miyuki Delicas 11/0 and a PureCrystal cabochon? Follow this tutorial and surprise your friends with this DIY bracelet that turns into a necklace. Elegant, simple and comfortable to wear, do not hesitate to create in several colors to match all your outfits, winter and summer! It's also the perfect tutorial to start! No more hesitation! The Crystal Summer Blue rivoli cabochon used in this tutorial is part of the PureCrystal Spring / Summer 2018 collection "New Perspectives"! Guaranteed trend until next year!

Step 1 :

Glue the rivoli cabochon 12 mm into the interlayer with jewelry glue. Cut 30 cm of 0.3mm braided nylon wire "Griffin". Thread a bead to crush, pass through the ring of the insert and then iron the thread inside the bead to crush. Flatten it with a special pearl crimping pliers (see: "Making nice finishes with crimp beads" fact sheet) and put a little bit of glue to fix it all and a pearl crush cover over it. Cut the thread flush.

2nd step :

Thread the beads on the wire. From time to time add pompoms. You can either buy them all done, or make them yourself with these reels. Finish with a closed ring that you fix with a bead to crush as in step 1. Check beforehand that the thread is a little less than 2 times around your wrist.

Step 3:

Do the same thing on the other side. Then add a carabiner clasp and an extension chain on each side with an open ring.

The bracelet can also be worn as a necklace!
