How to make a multi-row bracelet with Miyuki?

Today, we present you a new model of bracelet in Miyuki to customize according to your desires. This bracelet is divided into two parts: A first part made of beads weaving on a loom and a second part made of multiple threads and colored braids with a simple beads threading. These two parts are fixed on Hiilos clasp tips. These are ringless tips that fit inside the Hiilos interchangeable clasps. This way, you can keep the same clasp for several different bracelets that you can easily combine and replace.

For example, you can make this bracelet several times in different colors and with a different message and buy only one Hiilos clasp for all these bracelets. Hiilos clasps come in different sizes. This one is the medium size. You can wear the miyuki weave alone with the small clasp or have a very large bracelet with 3 parts instead of 2 with the large clasp. It comes in gold, rose gold, silver, black, pink, yellow, blue and are made of ABS and not metal, which makes them very light and comfortable to wear.

If you don't want to use Hiilos clasps, then use end caps with rings and attach a simple lobster clasp to them. To avoid making you buy several different strands, weaving wire is also used for bead strands, but it is doubled. Do not put heavy beads on it, as it is not made for it. If you have Fireline wire at home, prefer to use this for beading wire, double it too, or Linhasita wire 0.5 mm.

Measure your wrist. The size of the weave is 14.5 cm. You need to make the weave the same size as your wrist or a little larger. The clasp will add ease so that the bracelet is not too tight. If the original design is too small, adjust it by repeating the flower pattern at the beginning and end. 1 flower is about 5mm wide. So if you need to make 15.5 cm of weave, add 1 flower on each side of the bracelet. If it's 16, go with 16.5 for simplicity and add 2 flowers on each side. It is better to make the bracelet too big than too small. See diagram.

This tutorial does not show you how to do bead weaving in detail. To learn this technique, go here: [Learn how to weave on a loom](#).

Here is another Miyuki weaving pattern that matches the 22mm clasp size: [Miyuki pastel double peyote bracelet](#).

Which material to use for Hiilos Multirang pink and turquoise bracelet with interchangeable clasp?

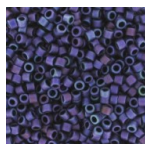

SUPPLIES

Terminator for Magnetic interchangeable clasp Hiilos 11 mm - Silver Tone x1
Ref. : ACT-697
Quantity : 4

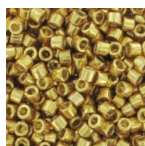

1.5mm Flat braided cotton cord - Light blue - Lilac - Light green x1m
Ref. : CRD-399
Quantity : 1

Miyuki Delica 11/0 DB1054 - Matte Metallic Plum Gold Iris
Ref. : DB-1054
Quantity : 1

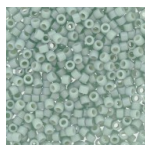

Miyuki Delica 11/0 DB1510 - Opaque Bisque White Mat x8g
Ref. : DB-1510
Quantity : 1

Miyuki Delica Duracoat 11/0 DB1832 - Galvanized Gold
Ref. : DB-1832
Quantity : 1

Miyuki Delica 11/0 DB2117 - Duracoat Opaque Carnation
Ref. : DB-2117
Quantity : 1

Miyuki Delica Duracoat 11/0 DB2356 - Opaque Dyed Pale Turquoise x8g
Ref. : DB-2356
Quantity : 1

Magnetic interchangeable clasp Hiilos 22 mm - fine Gold plated x1
Ref. : FRM-973
Quantity : 1

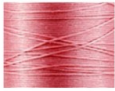

Metal beads 4mm fine Gold plated x20
Ref. : MET-073
Quantity : 1

Bead Faceted puck Quartz Rose 6 mm x1
Ref. : SP-717
Quantity : 1

4mm Opaque resin bead - Verdigris x15
Ref. : STQ-163
Quantity : 1

Miyuki Nylon Beading thread B 0.25 mm Pink x50 m
Ref. : UFC-499
Quantity : 1

SUPPLIES

Set of Pony embroidery needles size 10/12 x6
Ref. : OAC-1109
Quantity : 1

Metal Beading Loom extendable and largex1
Ref. : OUT-807
Quantity : 1

Jewel Glue Hasulith 30ml
Ref. : OUTIL-007
Quantity : 1

steps

★ Step 1/7

Attach 8 threads to the loom. To do this, do not cut the thread from the spool. Unwind it, attach the end to the nail, pass the thread on the loom, still unwinding the spool. Wrap the thread onto the second nail and return to the first one by installing the second thread. Wrap it around and continue. Then tie the thread with a double knot and cut it.

Cut 1.7 m of weaving thread, tie it to the outer thread of the loom, keeping 20 cm of thread end.

String the first row of beads, go under the weave with the beads and pre-place the 7 beads between the weave threads. 1 bead must be between 2 threads. Pass the needle back through the beads, being careful to pass over the loom threads. Tighten and repeat this step with the second row. The weave will tighten as you go along. By the end of the third row, there will be no real need to tighten.

★ Step 2/7

Follow the pattern. To change the thread when it is only 15 cm long, catch the thread in the weave by passing through the previous rows. Make 3 or 4 passes, trying to go far into the weave. Take a new 1.7 m thread and wedge it in turn in the same way then continue where you left off.

To stop the weave, tie a double knot on the loom thread at the edge of the weave. Catch the thread in the weave. Cut the threads, keeping as much of the thread length as possible. Tuck the threads one by one into the weave. Trim off the excess thread, then pass the first and last rows of beads through the tubes. Close the tab on each side.

The first part is finished.

★ Step 3/7

The second part is composed of 3 braids on which are fixed 3 threads with beads. 1 thread on each braid. To start, tie the end of the ready-made braid with a tight knot. Cut 60 cm of Miyuki or Fireline thread. Thread it onto a needle. Tie the two ends of the yarn with a double knot. Thread the needle through the braid near the knot.

★ Step 4/7

String your beads. If you put a bead in the center, try to center it by measuring the length as you go. The bead wire should be about the same length as the bead weave.

★ Step 5/7

Once the right length is reached, tie a second knot on the braid. Pass the needle through the braid near the second end knot and tie the yarn to the braid with a double knot. Trim the ends of the yarn. Repeat steps 3-5 to get two more sets of braid + bead wire.

★ Step 6/7

Put glue on the knots and slide the knots into the tubes. You can use a toothpick to push the braid and the knot into the tube. Close the two legs of the tube.

★ Step 7/7

Your bracelet is ready! Slide the tubes into the clasp to wear it.
