6 mm lava stone round dyed beads - White x15
Ref. : SP-881
Quantity : 1

SUPPLIES

Jewel Glue Hasulith 30ml
Ref. : OUTIL-007
Quantity : 1

steps

★ Step 1/2

Cut 27 cm of elastic thread and pre-stretch it by pulling it. Then thread your beads. Adjust the number and order of beads to make a bracelet that is at least 1.5 cm larger than your wrist, preferably 2 cm.

★ Step 2/2

Make a double surgeon's knot. It's like a regular knot, but you wrap the wire around once more before tightening. Tighten the knot by pulling on the wire ends but also pulling on the inside of the bracelet so that it is tight on both sides.

Cut the wire ends 1 mm from the knot, apply glue and slide the knot into the lava stone bead to hide it. Wait for the glue to dry inside the bead before wearing it.
