## How to make Scandinavian-inspired geometric wooden earrings?

How to make geometric wooden earrings Scandinavian inspiration?

Create incredible earrings with sticky wooden boards . Discover in this DIY tutorial this material that will revolutionize the way you understand creative hobbies and create sensational geometric earrings inspired by the Scandinavian style . These boards also exist in beige wood, brown wood and natural wood .

Step 1 :

Use the triangle pendant as a template to trace the shape of the earring in colored card stock. Cut out this shape twice in the colored card stock and twice in the adhesive wood board. Remove the wood from its support and affix its sticky part on the back of the colored form to hide the grids.

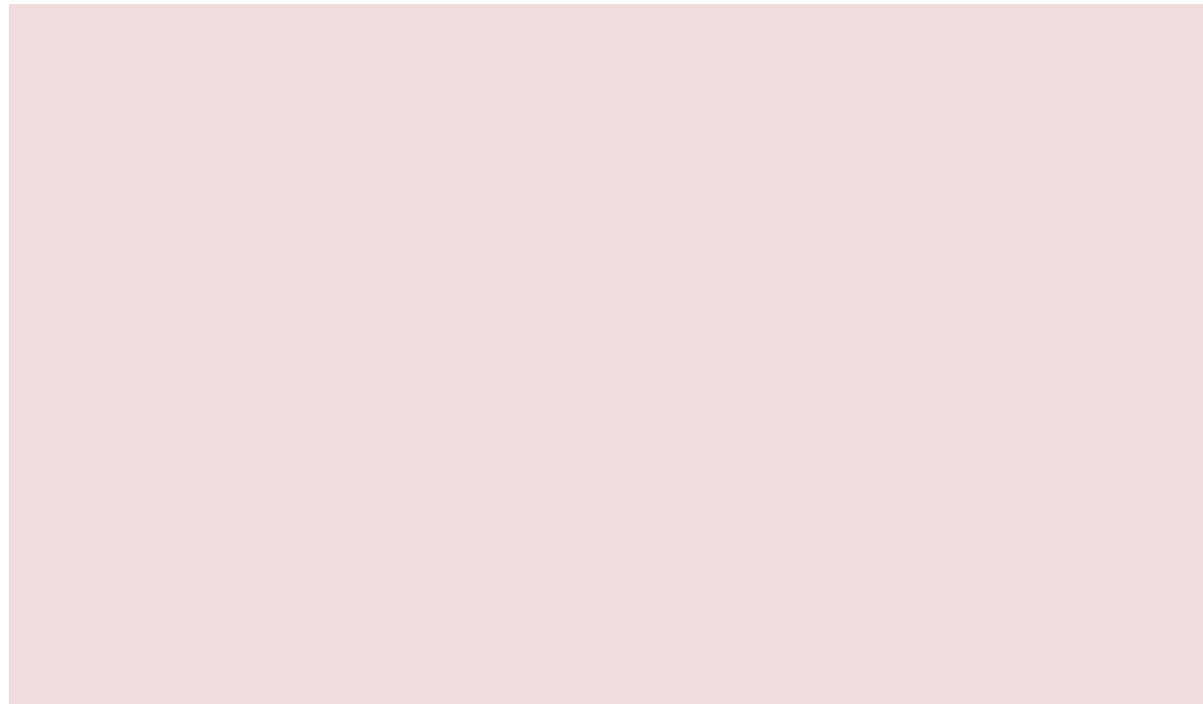

2nd step :

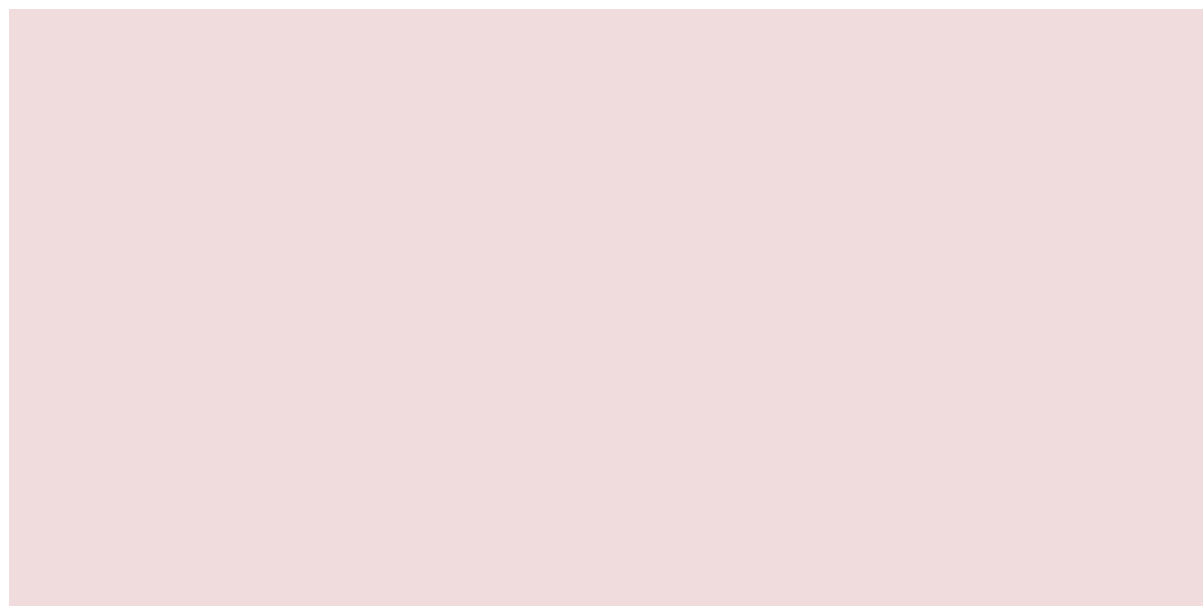

Spread cleotoo glue on the cut colorful shape and stick the pendant on it as in the photo. Keep it flat while it dries. Re-cut the shape with scissors so that it is perfectly symmetrical on both sides and attached to the pendant. With a tracing paper, or the other pendant, trace and cut the two pieces of wood that will come to rest next to the pendant on the colored form. Remove the film and paste them. Redo if necessary.

Step 3:  
Apply a thin layer of nail polish to the inside of the pendant. Use a brush and carefully wipe the edges. Wait 30 to 60 minutes for the varnish to dry before ironing a second layer and then wait another 2 hours to finish mounting the earrings on the hooks. You will need to turn the rings of the ear hooks a quarter of a turn with a flat pliers so that the earrings are clearly visible when you wear them.
