How to make a long necklace with wooden beads?

We propose you an easy and trendy tutorial to create a necklace of wooden beads in a Scandinavian spirit . Very simple to make, just wooden beads, several colors of paint and thread. The hardest thing will be to make a choice between the different shapes and sizes of wooden beads !

This jewelry tutorial can be adapted to infinity: it's up to you to mix the colors and shapes for a jewel to your image and according to your desires of the moment.

For other inspirations, you can also see our other wooden jewelry tutorials .

STEP 1

Paint two faceted wooden beads with black paint. Do not hesitate to pass two layers for complete opacity.

2ND STEP

Once the paint dries, all you have to do is put the beads on a thread. Here we chose Lizbeth cotton thread in pink to bring lightness to this necklace but nothing prevents you to put a very fine chain (be careful, make sure that the diameter of the chain is less than 2mm).

Thread a golden pearl, the raw black wooden bead, a golden crush tube, the wooden cube, a golden crush tube, the raw black wooden bead and a golden pearl.

Your saltire is finished! You can wear it with all your favorite outfits.
