

## GIRLFRIEND BRACELET WITH KOS GLASS BEADS, KALOS BY PUCA AND ROCAILLES MIYUKI

By : Puca

Intermediate

2h20

*How to make a bracelet with glass beads?*

Learn in this tutorial how to create a woman's beaded bracelet. The [glass beads by Puca](#), original and geometric shape allow you to create many combinations and make unique jewelry. The Kos and Kalos beads used in this tutorial are respectively in the form of a half circle with two holes and a round flat puck. These beads are perfect for creating jewelry of all kinds: bracelet, necklace, earrings ... and for all occasions! In this tutorial, Puca shares with you the steps to make the Copine bracelet . You will learn in this tutorial how to combine the different beads by Puca and how to use other types of beads such as seed beads or spinning tops to create a perfect harmony. The bracelet "Copine" is proposed here in a blue and golden version (to adapt according to your desires by modifying the list of the material with the other colors available on our site). You can also find at the bottom of the page, in the "Variant" list, another suggestion of color association: orange / gold. The material list allows you to make a 17 cm bracelet. This measurement is of course adaptable, you can add or remove one or more repeats of the pattern if necessary. You can also consider adding an extension chain at the end of your jewel, very practical when you want to offer your creation and you don't know the size of your wrist.

And to go further and use the rest of your bag of Kos beads, here are other tutorials proposed by Puca:

- [DIY Mafate pendant necklace with Paros and Kos glass beads by Puca](#)
- [Yona bracelet with Kos, Amos and Kalos beads by Puca](#)

NB: For reasons of stock it is possible that the list of material is modified and that some references have been replaced by equivalents.
