How to make beaded bracelets?

I propose to create quickly and easily not one, but three women's beaded bracelets:

- 1 multicolor heishi beads bracelet.
- 1 bracelet flat pearls with zircons washers.
- 1 lava stone bracelet with round beads.

Very easy to make, even for beginners, just slide your beads on an elastic thread to create these bracelets. The golden beads bring a little more light and elegance to the whole. And to close these pearl bracelets, a simple surgeon's knot will suffice. You can wear your new woman jewelry separately or together for a successful accumulation effect.

Play with the colors of the different heishi flat beads to make the bracelet that suits you!

Before you start, it is important to know the size of your wrist. On our datasheet, we give you tips on how to measure your wrist size for a bracelet, without a tape measure. Depending on the result, you may need to add or remove beads from the bracelets in my tuto. It's up to you!
