#### *How to make earrings at home?*

The circle earrings are very trendy. They are rings with a stud in the back. The creoles, on the other hand, are circular earrings with an integrated fastener in the circle. The ring is not presented in the same way on the ear. With the creoles, the circle is in profile. In the case of hoop earrings, the ring is in front. Thus, the loops are more visible. We have several models of hoop earrings for sale, including very delicate gold filled hoop earrings. You can also learn how to create your own creoles with our tutorials:

- Gold plated stainless steel and acrylic hoop earrings
- Creoles double ring with gemstones
- Creoles in Fimo clay

You can customize these rings in many ways. For example, by winding pearls around with wire, weaving around seed beads, or more simply, by hanging charms on the rings through other twisted rings.

It is this last option that we chose to personalize her round earrings. Cymbal beads charms allow even more customization. These are beads that are shaped like some glass beads. Here, they are Chevron beads. They come in several colors. Choose the one you like and stick your beads in the beads. We also have charms to customize with Kite beads.

These ethnic and minimalist style earrings will fit perfectly with all your outfits. Moreover, if you buy several colors of beads or several shapes of charms, you will be able to change the style in less than 5 minutes thanks to only two jewelry clips. The rings can be opened and closed several times.

## steps

### ★ Step 1/2

Open the twisted ring wide using flat and round pliers. Be careful to separate the two ends of the ring without pulling them apart, but by rotating them. Slide the charm into the ring and place the ring with the charm around the ring. Close the ring, making the two ends touch. Move the ends back and forth slightly so that they are facing each other. If you don't know how to open and close rings, check out this video: [How to open a ring?](#)

### ★ Step 2/2

Glue the herringbone beads into the crimps and let dry for 24 hours before wearing your earrings. A small drop of glue is enough.
