*How to make a pendant with beads?*

To inspire your creative soul, Puca offers a new round pendant tutorial made from Arcos glass beads. These "half moon" shaped beads are interconnected and fit, thanks to their hollow, the spinning beads that will also compose the pendant. The Arcos beads come in various finishes: matte, satin or glossy and are also very easy to assemble with the Minos beads by Puca. You can therefore assemble them to each other endlessly to let your imagination speak.

To make this beautiful pendant, simply download the diagram at the bottom of the page and follow the steps step by step. Then you can choose if you want to hang it on a chain, make a pair of earrings or even make a nice charm. You can associate it with the D'Cybèle pendant, another creation of Puca, whose tutorial she shares with you. Make it in camel or blue-green tones, as Puca suggests in the declination. You can, of course, give free rein to your desires and make this jewel in accordance with the colors of the D'Cybèle pendant to match it and create a beautiful bag jewel for example.

If you liked this tutorial, don't hesitate to check out our other pendant tutorials designed by Puca. You will surely find what you are looking for among the many creations we offer.

NB: For stock reasons it is possible that some references in the list of materials have been replaced by equivalents.
