By : Tiffanie Perles&Co

Easy

*How to make earrings easily?*

Here are two models of gold earrings to assemble yourself. These earrings are very fast to make. It will take you about 10 minutes to make both pairs. They are made with a nice light gold plating. Preferably choose open gold filled hoops to have a similar gold color, as the gold filled hoops might be a bit more yellow. To make these gold earrings, you will need two jewelry pliers to open and close the hoops. Take either one flat and one round pliers, two round pliers or two flat pliers. The tips of the pliers will need to be thin, as the rings are small. These trendy fancy ear rings are easy to make and easy to wear. They will go with many different styles of clothing. This makes them ideal for a capsule wardrobe. In this case, choose one of two pairs to keep it simple. The elements that make up these earrings are premium quality and will last well over a season. This is a simple tutorial, but we know that sometimes it's hard to choose elements in the same shades of gold online. So here are two examples of primers that go together without a false note.

## steps

### ★ Step 1/4

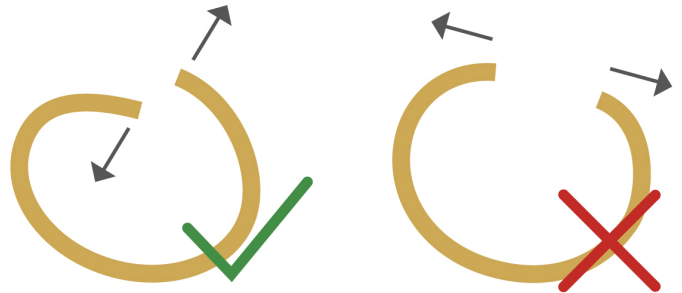

Gather the necessary materials for the two pairs of earrings. For the gold drop earrings, you will only need a pair of ear hooks, the 2 drop pendants, 10 drop charms and 10 2.5mm hoops.

For the other pair, you will need the pair of round stud earrings, 2 round rhinestone pendants, 6 diamond drop charms, 6 2.5 mm rings and 2 4 mm rings.

### ★ Step 2/4

The only jewelry technique you will need to know for this tutorial is how to open and close a ring without distorting it. Rings are not opened by pulling the ends apart, but by rotating them on an axis. You can see the gesture in this video article: [How to open a ring?](#)

### ★ Step 3/4

For the golden drop earrings: The pendant attaches directly to the built-in ring on the ear hook. Add 5 charms to the pendant with 2.5mm rings. Each charm is separated by a hole to space them out on the pendant.

### ★ Step 4/4

For round earrings: Attach the ear stud to the round pendant with a 4 mm ring. The charms are attached with 2.5 mm rings and are separated by two holes in the pendant.
