How to make a bracelet with beads?

Want to add a bracelet to your beaded jewelry collection? Discover the tutorial of our designer Puca, made with glass beads by Puca and Miyuki Rocailles beads. Assemble your beads by creating flower shapes with Paros beads that will symbolize the petals. Link them together with Rocailles beads and spinning top beads to make an original beaded bracelet.

In this tutorial, Puca offers two variations, one in yellow tones and the other in pink tones. It is completely possible to choose other colors. We can't tell you enough, but as usual, you can of course adapt the colors of the tutorial to make the creation with your favorite colors! You can find the whole list of materials at the bottom of the page. We have listed the materials for the two variations proposed by Puca. It's up to you to use your creativity for even more originality!
