*How to make a pearl pendant?*

What could be better than a new pearl pendant to add to your pendant collection? This tutorial was made by our partner designer Puca, whom we thank for this new creation! Take a weaving ring of the diameter of your choice, weave your beads inside and you're done! Granted, it's easier said than done. But Puca is here to help you! She shows you step by step how to make this original woman's pendant so there's no reason you can't do it! Several categories of glass beads by Puca were used in this tutorial. If you want to make your pendant in another color, it is possible to do so. You just have to choose the color you want for each category of glass beads, namely Baros, Konos, Kalos and Piros. The pendant is also made of Miyuki Rocailles beads, for which you also have a wide choice of all available colors.

You like this bead pendant necklace and you want to make more? Find all our other glass bead pendant tutorials by Puca on our website.

NB: For stock reasons, some products in this tutorial may have been replaced by equivalents.
