15 minutes

What to do with large plastic links?

Rather necklace or earrings today? Necklace, bracelet, earrings, it's up to you to choose with this tutorial. This tutorial offers you 3 jewelry options with few materials and only a few strokes of the pliers. In the jewelry trends of the moment, we find many large links. So if you too are attracted by jewelry with a chic and imposing style, this DIY is made for you.

In this tutorial, we propose you to make a long necklace (modular necklace) by combining different links and pendants. A jewel that will dress up your knitted cardigans, your blouses, as well as your long sweater dresses. With its warm and festive colors, this necklace will enhance your everyday outfits but also those of the holidays. This tutorial is perfect for beginners in costume jewelry creation. The advantage of the links is that they are very easy to assemble together, a small notch on each link allows you to slide them together and modulate your jewelry as you wish. To make the earrings, you will need 2 pliers but nothing too complicated, you just need to know how to open and close a ring:)

The colors chosen in this tutorial are one option among many others. We offer a wide range of links that will allow you to customize it endlessly. Sober or extravagant let your imagination run wild with different shapes, materials and effects.

We love to see the result of your creations inspired by our tutorials so don't hesitate to send them to us on Instagram or Facebook at @perlesandco or with the #perlesandco :) Happy creating!

Ref. : STQ-780
Quantity : 3

Open ring 42mm Chalk Sand x1
Ref. : SYN-648
Quantity : 4

steps

★ Step 1/3

For the necklace:

Choose your favorite colors of links and the number to modulate the size of your necklace according to your desires. For this version we used: 3 oval acetate pendants, 4 oval links and finally 33 oval twisted plastic links.

Connect each link by their end thanks to the notch of the links. Assemble your necklace by sliding each link into their slot.

★ Step 2/3

For the bracelet:

Unhook one of the oval pendants and a few links. Adjust the number of links according to your wrist size. Then connect the two ends of the plastic links to the pendant. And that's it!

★ Step 3/3

For the earrings:

Get your round ring and thread it through the notch in the pendant. Slide the ear stud into the ring and close it with pliers.
