How to make earrings?

Looking for a tutorial on how to make dangling ear rings? Check out this new pattern from our partner Puca® that shows you how to make fancy dangling earrings with Les perles par Puca® and Miyuki Rocailles beads. With detailed explanations, you will learn how to weave the beads together to make round beaded pendants. Although accessible to beginners, this tutorial will still require patience and attention to detail. Once the weaving is done, you just have to connect the two pendants on earring holders and your pair will be finished!

In her tutorial, Puca uses blue and black Paros beads. She also offers a variation with two other colors in yellow and gold. However, you can take the colors you want by choosing from the Paros category of glass beads by Puca. You can, for example, choose colors that match your holiday outfit, which they will accessorize perfectly!
