How to make a beaded heart?

Learn step by step how to weave a heart in Miyuki with this video tutorial. This is an ex-voto heart weaving chart or Mexican heart. You can wear it as earrings or as a brooch.

The weaving technique used is the Brick stitch. It is a needle weaving technique so you will not need a loom. By the way, this weaving pattern is not compatible with the loom because the beads are not placed in the same way. The advantage of Brick Stitch weaving is that you won't need much material and you can take your weaving anywhere in your purse. Brick Stitch is perfect for making "jagged" patterns, that is, other than squares or rectangles.

Love hearts and Miyuki? Here are some other tutorials that combine your two passions:

- DIY [Brick Stitch Heart Pendant](#) by Rose Moustache
- DIY [Easy pastel origami heart brickstitch weaving](#) to offer
- [Weaving brickstitch openworkheart](#)
- [Heart pendants made of miyuki beads](#)

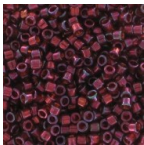

To stiffen your weaving and prevent the heart from twisting while wearing it, you can use several types of varnish depending on the purpose of your creation. In any case, only apply the varnish on the back of the weaving to avoid distorting the effects of the beads (ex: Mat, silk etc). If you want to sell, and in order to have no worries about the standards, you must use a hypoallergenic product like our [anti-allergy varnish](#) or subscribe to the idea of stiffening the weaving. If the jewel is for you or to offer and it is not in contact with the skin, like these earrings or a brooch, you can take Diamond Glaze or [Decopatch varnish](#). Put on several coats, waiting for it to dry between each coat.

Which material to use for Miyuki weaving grid Ex-voto heart or Mexican heart in beads?

SUPPLIES

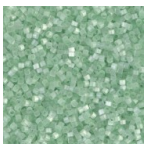

4X0.6mm Open Jump Rings - European-made -fine Gold plated x50
Ref. : ACC-362
Quantity : 1
