What to do with heishi glass beads?

It's time to treat yourself by making a pretty colorful necklace for the beautiful days! In this DIY jewelry tutorial, you will find all the steps to make this necklace yourself with green glass heishi round beads, a bit of bow effect chain and pretty multicolored chevron beads. This tutorial is easy to make, you only need the 3 classic jewelry clips to make it. Here is an article presenting them and explaining the specificities of each one: The 3 basic jewelry clips. The small chevron beads with original shapes add an ethnic touch to this jewelry, making it more original because the main advantage of making your own jewelry is not to have the same as everyone else!

If you are not a fan of green, the round beads are available in several colors to vary this jewel according to your taste and style. You can also change the chain if you want something thinner or more discreet always in gold because it is not advisable to mix materials in one jewel!

This pretty necklace will be your best ally for the summer to wear with a nice long dress or a little blouse that you could sew yourself thanks to our range of fabric and patterns :)

We are waiting to see the result if you reproduce it, so don't hesitate to post it on instagram with #perlesandco or @perlesandco or on the Facebook group Super Club des Client(e)s Perles & Co.
