How to customize a bridal comb?

Would you like to customize a bridal comb to match your wedding gown and finery? Create hair accessories for your bridesmaids? Follow this simple tutorial and create your own DIY comb to enhance your hairstyle on "D" day. Between the different beads, flowers and feathers we offer on Perles and Co, the possibilities are virtually endless. In this tutorial, we'll be using mainly PureCrystal pearly beads, but you can also add PureCrystal bicones to your composition to give it a touch of sparkle, or glue hotfix rhinestones to the flower petals. This comb model is also available in gold or transparent plastic.

We love to see what you can do with the tutorials on Perles & Co, so don't hesitate to send us photos of your creations on our Facebook page or tag us on Instagram #perlesandco.

Which material to use for DIY Bridal Pearls PureCrystal Pearl Feather and Flower Bridal Comb?
