### *How to make dangling earrings with crystals?*

Learn how to set crystal cabochons and how to assemble them to create original dangling earrings. These long earrings will be perfect for a dressy outfit or to match your favorite blouse. For this tutorial, we chose to make shimmering colorful earrings with a red crystal stud earring. If you'd like earrings in a different hue, we have dozens of crystal cabochon colors to choose from to customize your earrings. These shapes and sizes are available in both PureCrystal (premium European crystal) and the affordable Aurora crystal.

The red pearl is a Maxima pearl from Preciosa. This bead comes in 40 different colors! These are also crystal beads. On each earring, you will also find irregularly shaped freshwater pearls called Keishi pearls. The earrings are available in silver. As you can see, you can have a very wide choice of earrings with our pearls and crystals.

Why not choose an outfit from your wardrobe and select matching crystals and beads to create custom earrings?

This way, you'll have unique earrings that perfectly match your outfit and style.

This video tutorial shows you how to use cabochon settings with holes. Indeed, you can thread them on a wire to create bracelets, but also, you can pass a ring or a loop to assemble several crimps on a pair of earrings. It will be much easier to assemble the crimps before attaching the cabochons, as you will have more leeway and visibility.
