How to make a pendant yourself?

Our partner Les Perles par Puca® offers you a new pattern for the release of the new colors of Kalos and Arcos beads by Puca®. In this tutorial, discover how to make a pearl pendant around a weaving ring by mixing pearls by Puca® with PureCrystal spinning tops and Miyuki Rocailles. To go with this beautiful pendant, Puca® offers you another [Trianon pattern](#) to learn how to make a bracelet. You will be able to make a nice set for this summer. Puca® has made this pattern to teach you how to make a fancy pendant. Depending on the desired result, you can adjust the length of the chain to make a necklace with the pendant falling on the neckline or a long necklace with a longer length. You can also turn this pendant into earrings if you wish. This is a variant that Puca offers you and you can see the rendering in one of the pictures below. The list of materials to make this variation is at the bottom of the page. The earrings were made in a pink and purple gold version. The pendant was made with blue and silver tones. You are free to choose the colors you prefer. We have a wide range of colors of [Arcos](#) and [Kalos](#) beads on our website.
