How to make a bracelet with beads?

The new colors of Kalos and Arcos by Puca® beads have arrived on the site. For the occasion, our partner Les Perles par Puca® offers you the Trianon bracelet pattern. In this tutorial, discover how to assemble Kalos and Arcos beads with PureCrystal beads and Miyuki beads. You will get a nice fancy pearl bracelet that you can wear with the Trianon Pendant. Another pattern that Puca® offers for this new collection of beads by Puca. A great way to start this new season with a nice DIY set! Especially since the Trianon pendant can also be used as earrings, which is pretty cool, isn't it?

Puca offers you the Trianon bracelet in a blue and silver version but you can change the colors according to your desires. There is a wide range of colors of Kalos and Arcos beads on the website. If the bracelet is too small, I suggest you add an extension chain to adjust the size to your liking.

If you want to go further and use the rest of your Kalos beads, here are some other tutorials from Puca®:
