### *How to make seed beads earrings?*

Today we present a video tutorial to make black seed bead drop earrings. These black drop earrings are made from Preciosa seed beads size 8/0. These are black beads striped with white that is inspired by traditional African seed beads. The use of this type of seed beads brings a touch of originality and accentuates the artisanal side of this creation.

The handmade black seed bead drop earrings are ideal to enhance your outfit for any occasion. Whether it's a fancy party, a business meeting or a casual event, they go perfectly with a variety of clothing styles. Since black is a timeless and versatile color, these earrings work well with many other shades, making it easy to match with your outfits. Plus, these handmade earrings are a great choice for an original, handcrafted gift.

To create this multi-row effect, we used 2 and 3 row flower spacers. In addition, in the center of the beaded multistrand earrings, we added a very elegant quartz charm. However, feel free to replace these charms to customize your earrings. You will find different possibilities at the bottom of the page in the variation section. You wish to make these earrings in other colors? These beads also exist in blue and white striped beads, and in various assortments of colors. They are sold in bags of 20 gr, or about 800 beads, for a very affordable price. You can even make a multi-row bracelet with leftover beads.
