How to make a beaded flower?

Our partner Les Perles par Puca® teaches you in this new very spring-like tutorial, how to make flowers with Puca® beads (in this case a camellia, you will have understood by the name of the pattern). Very trendy this summer, flowers are back and you will see them everywhere! With this pattern, Puca® shows you how to combine Piros® and Minos® beads with a round bead in the center. So take a look at this pattern and learn how to create beaded flowers easily to be on trend this summer.

The pattern teaches you how to create a flower. You are free to make as many as you like and assemble them into a necklace, bracelet, earrings, pendant, ... Primers have been added in the variation list to help you in the realization of the jewel. You will also find other colors to inspire you on the associations of colors. However, if you still haven't found what you're looking for, we still have a large selection of Piros® and Minos® beads on our website. The combinations are endless so please feel free to share your beautiful creations on social networks by mentioning us on your post.

If you liked this tutorial, I invite you to have a look at our other tutorials Flowers in beading and Flowers in weaving. Download the Camellia Flowers by Puca® pattern

NB: due to stock reasons, it is possible that the list of materials has been modified and that some products have been replaced by equivalents.

Which material to use for Camellia flowers by Puca® with Piros and Minos?
