steps

★ Step 1/3

Cut 1.5 m of thread and thread a needle on each end of the thread. Weave the row of beads shown in the diagram. For a more detailed explanation of Brick Stitch weaving see the tutorial in the introduction. Place the beads in the center of the thread.

★ Step 2/3

Remove one of the two needles and begin weaving the left or right side of the crane, increasing or decreasing as necessary.

★ Step 3/3

Stitch the pike to the weave then wedge the thread into the weave and cut it. You can stiffen the weave by applying glue to the back of the pin.
