0 minutes

With the arrival of the beautiful days, we are more creative than ever! We take the opportunity to indulge ourselves by making simple but very stylish jewelry.

In this tutorial, we show you how to easily and quickly make a woman's necklace with a mix of materials. This is an easy piece of jewelry to make even for designers who are new to jewelry making.

For this multi-row necklace, you just need to join two simple necklaces. We played with the contrasts between the delicate refinement of a gold stainless steel chain with flowers and the elegant casualness of a Heishi pearl necklace with tinted mother of pearl. Technically speaking, there is no particular difficulty. You don't even need to know how to make flowers with pearls, since they are already mounted on the chain. Here, they are formed with Amazonite beads to keep a soft harmonious hue. You can choose to use a chain with rhodochrosite, carnelian, lapis lazuli, rutile quartz or labradorite flowers. The colors of these natural stones blend perfectly with the color of the mother of pearl.

Stainless steel jewelry is resistant and durable. They will accompany you in your daily life without the risk of damaging them. Want more ideas? Go to our "Tutorials" section to create stainless steel jewelry without limits! Feel free to start creating DIY costume jewelry and don't forget to show us the results of your creations on social networks!

Which material to use for Stainless steel necklace with small flowers in Amazonite?

SUPPLIES

Ref. : NA-778
Quantity : 1

12x8mm Flat oval mother-of-pearl bead with stainless steel 316L rhombus - GOLD x1
Ref. : NA-798
Quantity : 1

steps

★ Step 1/4

Cut 50 cm of wire (adjust to desired length). Thread a bead to be crushed, then the clasp and pass the wire again through the bead to be crushed. Crush the bead to block your wire. You can add a bead cover if you wish.

★ Step 2/4

String the round mother of pearl beads and the gold stainless steel beads on the cabled wire. Finish your necklace with a closed ring. Use the same method as before with the clasp. Add an extension chain.

★ Step 3/4

Cut 37 cm of the stainless steel flower chain.

★ Step 4/4

Finally, thread the mother-of-pearl bead onto a flat head nail. Then bend the nail with a flat nose pliers so that it makes a right angle. Leave about 1 cm and then wrap the stem around your round pliers in the opposite direction of the right angle. Trim the excess and tighten the loop so that it is tight.
