What gift to give for Mother's Day?

Haven't you thought about the gift you are going to give to your mom for Mother's Day? Don't worry, our partner Les Perles par Puca® offers you this beautiful Ecrin d'amour pattern in which you will learn to customize a wooden box with beads. She will be able to store her jewels, tender words from her children, beads and many other things. To personalize this wooden box, Puca® suggests you combine Helios®, Kalos® and Piros® beads with a glass cabochon by Puca®. You will create a nice weaving around a ring to stick on the lid of the box. For even more elegance, you can add a small rhinestone chain around the box. And for the most motivated among you, you can even create a peyote weave to dress up the bottom of the box.

This creation is infinitely customizable, so you can adapt it to your mom's tastes if you choose to give it to her. For this pattern, Puca offers 3 variations: a first one in turquoise and gold tones, a second one in gold and brown tones, and a third one in red and gold tones. And if you want other colors, you can find all the references of the [beads by Puca®](#) on our website.
