

BO TANGO WITH ARCOS AND KALOS BEADS

By : Puca

1h30

How to make pearl earrings?

The new Arcos® pearl colors have arrived. To mark the occasion, our partner Les Perles par Puca® offers a new pearl earring pattern. For this tutorial, you'll only need two types of pearls by Puca®: Arcos and Kalos. Puca® will show you how to weave them with Rocailles and round beads to create your very own pair of earrings. A timeless accessory, they will add a touch of elegance and refinement to any look. Whether you're looking to complete a formal outfit or add a colorful touch to your casual wear, these earrings will be ideal.

Puca® offers a green and gold version for this tutorial. But Arcos pearls come in many colors, and you can find all our references on the site. As for Kalos beads, we have several colors available on the site. You can also find the new Arcos Milky colors in variations in the hardware list.

The added bonus of these earrings is that they don't require many beads. So if you're a fan of pearls by Puca® and you've got a few bags to spare, this is the perfect opportunity to finish them off. And if you like this pattern, I invite you to take a look at our other tutorials by Les Perles par Puca®.
