How to create a pearl pendant

To coincide with the launch of the new 25mm cabochons by Les Perles par Puca®, our creative partner Puca® offers you the Natascha pattern to learn how to make a pendant. Create a setting around your cabochon with Miyuki Delica and Rocailles beads, then weave Piros and Arcos par Puca® beads to weave the rest of the pendant. Add a small pearl/drop to complete the piece.

Puca suggests you wear this pendant as a necklace. You can adjust the length of the chain to suit your necklace style. For example, if you want a long necklace, feel free to add length to the chain. This pendant can also be worn as bag jewelry or a keyring, for example. In terms of colors, Puca® offers an orange version for the pattern. With this color, you're sure to be on trend this summer. You can also find a turquoise variant in the variation list at the bottom of the page. You can also find all our [cabochon](#), [Arcos](#) and [Piros](#) bead colors on our website.
