How to customize a wood stand?

Summer's here and it's time for barbecues! Decorate your pretty table with this scheme, created by our partner Les Perles par Puca®, to learn how to customize this wooden stand by Puca®. You'll need several types of glass beads par Puca®: Samos, Arcos, Kheops, Kalos and Piros. Weave them together to create a kind of bracelet, which you can then glue to the support. You can then use your creation to store cutlery, straws, cocktail picks and much more. For this pattern, Puca made it in shades of turquoise, green and gold, but feel free to personalize your basket of products to match the beads to your customization project. We have a wide selection of [glass beads by Puca®](#) on the site. In the list of variations, you have two other color options, which you can see in the tutorial photos. If you like the customization schemes for Pearls by Puca®, have a look at the [Ecrin Pour Toi](#) and [Bouchon Orchidée](#) schemes.
