How to create a beaded decoration?

Our creative partner Les perles par Puca® offers you a new pattern to mark the release of its wooden support: suspension coeur®. In this tutorial, you'll learn how to customize it by making a kind of flower that you'll glue to the center of the heart. To do this, you'll need Samos beads in the color of your choice, Miyuki R15 and R11 beads and PureCrystal spinning beads.

This tutorial is ideal for learning how to create a pretty decoration for your home, which you can hang on one of your doors, for example. It will bring a rustic, country and modern style to your home. Alternatively, you can make it into a keyring, or simply open it for a loved one. For this tutorial, Puca® has chosen shades of green and silver. But you can choose the color of your choice yourself: we have a wide range of Samos beads, Rocailles beads and spinning tops on our site.
