[illegible][illegible]

Figure 1 displays two 10x10 grids representing the evolution of a 2D lattice model. The top grid is labeled '130' and the bottom grid is labeled '120'. Both grids show a sequence of states over time, with letters 'a', 'g', 'e', 'f', 'h', and 'd' representing different components. The top grid shows a transition from a state with many 'a's to a state with many 'g's and 'e's. The bottom grid shows a transition from a state with many 'a's to a state with many 'e's and 'f's.
