Look no further than our DIY jewelry collection "Fleur de Cristal"! It's a collection of bright, colorful and shiny jewelry, to be worn for any occasion, but especially for the holidays.

In this tutorial, you'll discover how to make your own gold-plated dangling ear rings with chains and rhinestones. An ideal creation for beginners, they'll make an excellent DIY gift idea or a piece of jewelry to wear for the festive season. Why not also use them to accessorize your everyday outfits?

To make these golden dangling earrings, you'll need six red rhinestone charms and six orange rhinestone bar spacers. You can personalize your gold dangle earrings by changing the color of the rhinestone charms and spacers from the selection on [our](#) website. Why not create them in [light pink](#) and [cognac](#) or [petrol blue](#) and [black](#)? Let your imagination run wild!

For this tutorial, you'll also need two sizes of open rings, a mesh chain, two gold pendants and a pair of gold stud earrings. For added originality, you can also choose a vintage gold finish for your pendants and studs. Don't forget a pair of wire cutters to cut the chain, as well as flat-nose pliers and round-tipped pliers. So, are you ready to start creating these golden dangling earrings?
