

## HAMMERED EFFECT DANGLING HEART EARRINGS - HANDCRAFTED

By : Lucie T Perles&Co

Advanced

0 minutes

### *How to make earrings by hand?*

If you've always been tempted by the idea of creating your own costume jewelry using classic methods, but never dared to take the plunge, our heart earrings tutorial is the perfect starting point!

This step-by-step video guides you through essential jewelry-making techniques:

from meticulous cutting to polishing and soldering. You'll discover the art of hammering metal, faithfully reproducing a template on a brass plate, precision sawing with a bocfil, drilling metal, or even soldering a shank to create perfect ear studs.

As with all the techniques we show you, don't forget to protect yourself with gloves, a smock, a mask... and watch your fingers!

We're all about safety: remember to protect yourself with gloves, gown and mask, and watch your fingers when handling the tools.

Our YouTube channel is packed with detailed tutorials, varied techniques and practical tips to help you master traditional jewelry-making as a self-taught artist. Be inspired by our DIY projects and embark on a creative adventure to bring your unique, personalized jewelry ideas to life. It's up to you to shine!

### SUPPLIES

100x100mm brass plate - thickness 0.8mm - Polished brass x1  
Ref. : ATT-382  
Quantity : 1

13x0.7mm 925 Sterling Silver Earring Posts x10  
Ref. : SIL-056  
Quantity : 1

925 Sterling Silver Ear clutches 3.8x4.6 mm x10  
Ref. : SL-341  
Quantity : 1

### SUPPLIES

13.5x9cm Ceramic honeycomb welding plate for jewellery making x1  
Ref. : ATT-190  
Quantity : 1

17cm Straight Jeweller's Shears for cutting metal x1  
Ref. : ATT-192  
Quantity : 1

15cm Plotter tip - Carbide tip pen x1  
Ref. : ATT-193  
Quantity : 1

24mm Circular buffing brush in cotton thread x1  
Ref. : ATT-230  
Quantity : 1

DREMEL® : Cleaning and polishing set (684) x20  
Ref. : ATT-431  
Quantity : 1

16cm Set of 12 needle files - Medium and coarse grit - jewellery tools x1  
Ref. : ATT-476  
Quantity : 1

3P Picking Powder for Silver and Gold x1kg  
Ref. : ATT-515  
Quantity : 1

22x3.5mm Cotton Circular buffing brush x1  
Ref. : ATT-517  
Quantity : 1

27cm Borax brush n°12 with wooden handle x1  
Ref. : ATT-524  
Quantity : 1

250x20x6.5mm - P400 - Flat emery stick - Red x1  
Ref. : ATT-535  
Quantity : 1

250x20x6.5mm - P800 - Flat emery stick - Grey x1  
Ref. : ATT-537  
Quantity : 1

250x20x6.5mm - P1200 - Flat emery stick - Grey x1  
Ref. : ATT-539  
Quantity : 1

DREMEL® EZ SpeedClic : Fine sanding brush - grit 220 (473S) x1  
Ref. : ATT-574  
Quantity : 1

DREMEL® EZ SpeedClic : Fine sanding brush - grit 120 (472S) x1  
Ref. : ATT-575  
Quantity : 1

22cm copper tweezers x1  
Ref. : ATT-600  
Quantity : 1

12cm Precision tweezers by Perles&Co x1  
Ref. : ATT-601  
Quantity : 1

Soldering pliers - curved cross tweezers - 15cm self locking by Perles&Co x1  
Ref. : ATT-602  
Quantity : 1

68mm Third hand on base for cross-over tweezers - Black x1  
Ref. : ATT-607  
Quantity : 1

45mm Wooden mallet barrel shape x1  
Ref. : ATT-636  
Quantity : 1

Piercing saw blades for bocfil n°3/0 x144  
Ref. : ATT-645  
Quantity : 1

Polishing paste Lustre Bar x 450gr  
Ref. : ATT-790  
Quantity : 1

12cm Jeweller's steel bocfil - depth - rounded shape - Black x1  
Ref. : ATT-866  
Quantity : 1

200x16mm Flat knife file - medium grit - jewellery tools x1  
Ref. : ATT-870  
Quantity : 1

Ready-to-use Soldering water for jewelery - Yellow x1L  
Ref. : ATT-880  
Quantity : 1

Typing block - Rubber heap - 10 x10 cm x 1  
Ref. : ATT-904  
Quantity : 1

20mm steel brush - fine grit 0.3mm x1  
Ref. : HRA-091  
Quantity : 1

17x3.5mm Felt round cutter x1  
Ref. : HRA-338  
Quantity : 1

23x4mm Circular cotton polishing brush x1  
Ref. : HRA-341  
Quantity : 1

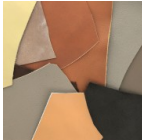

Marker Posca extra fine type 1 mm black  
Ref. : OUT-237  
Quantity : 1

Gas blowtorch DREMEL® VersaFlame  
Ref. : OUT-388  
Quantity : 1

Silver smith Hammer  
Ref. : OUTIL-475  
Quantity : 1

Ref. : PERS-982  
Quantity : 1

DREMEL® : EZ Speed clic Mandrel - Adapter for abrasive discs and polishers x1  
Ref. : TECH-264  
Quantity : 1

DREMEL® Pen + 2050-15 - Precision tool with 15 accessories x1  
Ref. : TECH-798  
Quantity : 1

Brazing for soldering in plate Ag High n°1 - 741°-788° x3g  
Ref. : TOOL-163  
Quantity : 1

Bloc in steel 6.4x6.4 cm x1  
Ref. : TOOL-635  
Quantity : 1

## steps

### ★ Step 1/8

Draw several small hearts on a sheet of paper and cut them out. Test the size directly on your ear to see if it's right for you.

Transfer the hearts to the brass plate. Try to optimize the plate as much as possible.

Cut out the three hearts with a bocfil.

---

### ★ Step 2/8

Once cut, rework the edges with the file. Then hammer the surface.

---

### ★ Step 3/8

Once you've hammered your three little hearts, move on to grinding and polishing the back.

Then give the three hearts a satin-matt finish with the Matte Brush.

---

### ★ Step 4/8

Put the three hearts back together, then flatten them so that they are straight.

---

### ★ Step 5/8

Before soldering the cores together, make marks with a marker on the back where you want to solder.

---

### ★ Step 6/8

Cut out small pebbles. Apply borax to the metal plates, then heat a little to plate the metal.

Position small pebbles using a tweezer, then braze until the pebbles melt. Heat the whole piece thoroughly.

Leave to rest, then put to dry. It's very important to have a hood with the deroché.

---

#### Step 7/8

We'll now weld the rod to the back of the part.

Make a pre-hole, position the rod, apply a little borax, then position the straw at the base of the rod. Heat the whole part, then concentrate on the rod. Once the braze is poured, stop.

Leave to cool on a jeweler's heap, then put in the déroché.

---

#### Step 8/8

Once out of the drip tray, brush over again.

Gently smooth the edges with a small file, especially the tips of the hearts.
