How to make a pearl pendant

Our partner Les Perles par Puca® offers a new pattern to coincide with the release of the new Arcos® bead colors. In this tutorial, you'll learn how to make a pearl pendant by weaving glass and Miyuki beads around a mounting ring.

In this tutorial, Puca® offers you two different versions: one in shades of pink and gold, the other in shades of blue and silver. As you can see, you can create as many versions of this pattern as you like - just let your creativity run wild.

In step 19, Puca uses the brickstitch weaving technique to weave Délicas around the ring. If you're new to weaving, please refer to our [How to weave beads around a ring](#) datasheet for help.
