How to make pearl earrings?

Discover the new pattern from our partner Les Perles par Puca®, created to mark the launch of the new Arcos® Metalust Mat bead range. Thanks to Puca's detailed explanations, you'll learn how to make a pair of dangling earrings by weaving glass beads with Miyuki pearls.

Very colorful for this spring/summer season, they'll be ideal to accessorize your most beautiful outfits. You can personalize them by choosing other colors of Arcos® beads and spinning top beads, for example. And for the more creative among you, why not tempt yourself by creating a version with a mix of colors?

If you like Puca®'s tutorials, check out her latest two: Perle One and Perle Two.
