How to make earrings with chain ears?

These tropical earrings made of Diamonduo pearls and chain are inspired by the "Heliconia Rostrata", an exotic plant also known as "Parrot's Beak". Do not hesitate to adapt the colors to your liking by using, for example, white and golden spike chain and gold plated Diamonduo pearls.

Step 1 :
Cut 50 cm of yarn, thread it into a needle and add a bead to hold at the end of the thread. Pass the thread in two Diamonduo as shown in the diagram. Leave 10 cm of thread end.

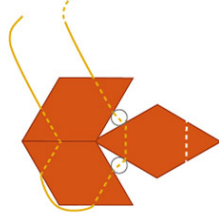

2nd step :

Pass through the other hole of the second bead and slip on a PureCrystal spinning top, a Diamonduo bead, another spinning top and go through the second hole of the first bead. Go back to the first hole of the second pearl and cross and go to the first hole of the first Diamonduo.

1.

2.

Step 3:

Thread an open ring which you have closed the edges accurately. Go through the first hole of the second pearl going through the top. Iron the beads twice to fix the composition and make a double knot between the first two Diamonduo with the two ends of son. Cut the thread flush.

Step 4:

Cut about 4 cm of chain of ears. Tie the string to the bead and crochet composition with the 4 mm rings.
