How to customize a wooden stopper?

Want to bring a little color and originality to your table? Take a look at this diagram from our partner Les Perles par Puca®, which shows you how to customize the Léa par Puca® wooden stopper. A stylish and original way to cap a bottle of wine or a carafe of water for a family meal or a dinner party with friends. In this tutorial, you'll learn how to weave several types of beads together, including Piros® and Lipsi® glass beads by Puca® with Miyuki Duracoat Rocailles beads and PureCrystal pearl beads to form a weave around the cork cone.

Puca® has created this pattern in shades of red and gold, but also in a green and gold version. Of course, you can adapt the colors to suit your own taste. We have a wide choice of colors for Lipsi® glass beads and Piros® glass beads. For your information, this stopper is purely decorative and will not seal your bottles. It is perfectly suited to wine bottles with standard neck sizes.

If you like Puca®'s tutorials, I'll let you have a look at his two latest tutorials: Pendentif Azel and Ecrin Surprise.
