How to make earrings with a pompom?

A few weeks ago, our partner Les Perles par Puca® offered you the Perle Two scheme, which teaches you how to make a bead to slide onto a chain to create pretty jewelry. You seemed to really like it! So today, to coincide with the launch of the new Lipsi range of beads by Puca®, Puca is offering you the opportunity to make a matching pair of earrings. Not a bad way to make an ensemble?

Thanks to Puca's detailed explanations, you'll learn how to make these dangling earrings by weaving glass beads with PureCrystal spinning tops and Miyuki seed beads and integrating a pretty pompom. This DIY creation lets you personalize your earrings according to your tastes and desires by playing with colors. Take your time to choose the ones you like, as we have a wide selection of Lipsi® pearls, PureCrystal bicones and Miyuki seed beads. One thing's for sure, these earrings will be ideal for accessorizing your most beautiful outfits this season .

If you like Puca® 's tutorials and would like to make more of her creations, take a look at these last two diagrams: Ecrin Surprise by Puca® and Pendentif Azel by Puca®.
