How to make a pair of weaving earrings?

In this tutorial, you'll learn how to make a pair of earrings using the peyote pair weaving technique. We'll guide you step by step through each stage of the process, providing detailed instructions. Whether you're a beginner or an experienced beader, this tutorial is simple enough for you to make your jewelry successfully. For all you weaving novices out there, we've got plenty of [sheets to get you started](#), including one on [How to make a simple Peyote weave?](#)

This piece of jewelry features a semi-rigid weave at the ear stud and ten multicolored bangs. The pearls used are Miyuki 11/0 seed beads. Here, I opted for pink, orange and green pearls. However, our wide range of Miyuki beads gives you the opportunity to choose the shades that best suit your preferences.

This tutorial joins the jewelry collection: [The beach!](#) Colorful jewels to make the most of summer (which, we hope, will come one day). Feel free to discover or rediscover all these tutorials.

Want to personalize this tutorial? You've got two options!

- If you've mastered the technique, you can create an infinite number of patterns in this tutorial: vichi, stripes, checkerboard... let your imagination run wild
- Each fringe is made up of 25 pearls, but you can customize the length to make this jewel unique!

If you try your hand at this tutorial, don't hesitate to share your creation on social networks by mentioning Perles & Co! We love to see your creations! We hope you enjoy making these colorful, summery earrings. Happy weaving!

Which material to use for Pair of peyote weave fringe earrings?

SUPPLIES

Gütermann recycled polyester sewing thread - White (n°800) x100m
Ref. : COU-501
Quantity : 1

10mm Stainless steel disk earstuds - 304L Gold Tone x2
Ref. : INX-019
Quantity : 1

Miyuki Seed beads 11/0 1385 - Dyed Opaque Carnation Pink x8g
Ref. : MR11/1385
Quantity : 1

Miyuki Seed beads 11/0 2021 - Opaque Cream Mat
Ref. : MR11/2021
Quantity : 1

Miyuki Seed beads 11/0 416 - Opaque Chartreuse x8g
Ref. : MR11/416
Quantity : 1

Miyuki Seed beads Duracoat 11/0 4454 - Opaque Kumquat x8g
Ref. : MR11/4454
Quantity : 1

Miyuki Seed beads 11/0 4698 - Opaque Glazed Pistachio Mat AB x8g
Ref. : MR11/4698
Quantity : 1

Miyuki Nylon Beading thread B 0.25 mm Eggshell x50 m
Ref. : UFC-494
Quantity : 1

SUPPLIES

Araldite Crystal Adhesive - Two component - Fast setting x24ml
Ref. : ATT-299
Quantity : 1

Miyuki Beading needles x6
Ref. : OAC-162
Quantity : 1

steps

★ Step 1/8

Prepare your materials, and cut a metre of thread. Thread the thread through the needle and string eight beads. These eight beads will form the first and second strands.

★ Step 2/8

We're now going to form the 3rd row (and the first and second at the same time). To do this, thread a bead onto your needle, and iron in the penultimate bead you've just threaded.

To rethread, you take a new bead, leave the bead closest to the needle on the thread and thread through the one before. If you place the beads correctly, you'll get a triangle.

★ Step 3/8

Repeat this step: leaving one bead aside, thread the needle with a new bead through the next bead. Continue this process to form a third strand (four new beads in all).

★ Step 4/8

For the following rows, we'll change the weaving direction with each new row. Proceed as follows:

Change direction: For each new row, alternate the weaving direction. If you finished the previous row from bottom to top, start the next one from top to bottom, and vice versa.

Adding beads: For each row, thread a new bead onto your needle and pass the needle through the last bead of the previous row to integrate the new bead into the weave. Repeat the action of adding a bead and passing it through the last bead of the previous row four times in succession for each row.

Step 5/8

For this weave, there will be a total of 20 rows.
Once the weaving is complete, wedge and cut the threads.

Step 6/8

For the bangs, mix beads of different colors in a container.
Cut 1 metre of sewing thread and wedge it into the weave. Once you've secured the thread, you'll need to start forming the bangs at one end of the weave (in a corner).

Step 7/8

Thread 25 beads and form the fringe by passing the needle through all but the last bead of the fringe.
Don't forget to pass the needle through the pink bead at the end of the last row of your weave. This connects the fringe to the main body of the weave.
Move the needle to pass through the adjacent pink bead, preparing the thread for the next fringe.
Continue adding fringe using the same process, and lock the thread into the weave.

Step 8/8

Fix the ear stud with Araldite crystal glue and allow to dry according to the glue instructions.
