### *How to create a fruit charm bracelet easily?*

In this tutorial, I'll show you how to make a charm bracelet quickly and easily. Perfect for a fruity summer, this bracelet can be personalized with fruit charms such as apples, strawberries, bananas, kiwis, cherries, and much more! Whether you're a fan of minimalist jewelry or passionate about DIY jewelry design, this pretty charm bracelet is made for you!

To create this personalized fruity charm bracelet, choose 3D epoxy resin and stainless steel fruit charms assembled on a rectangle mesh bracelet, also in stainless steel. The rectangle mesh bracelet is very trendy. Featuring a lobster clasp and extension chain, this women's bracelet adjusts perfectly to your wrist. Easily attach the charms to the bracelet with open rings.

Wear it alone or in combination with other bracelets for an even more fashionable look. Need creative ideas? You can find new ideas with our other easy DIY [stainless steel bracelet tutorials](#). Gold-plated stainless steel is renowned for its durability, but it's important to take care of it so that your bracelet retains its shine. If you wear it when going to the beach or pool, rinse it in clear water and clean it regularly with a soft cloth to remove any traces of salt or sand. Also remember to store it in a dry place when not in use, to avoid prolonged contact with moisture. ## steps

### ★ Step 1/4

Preparing the charms: select your 5 favorite fruit charms.

---

### ★ Step 2/4

Open the ring with flat pliers and attach the ring with the charm to the rectangle mesh bracelet. Repeat for each charm. Distribute them evenly around the bracelet. We recommend attaching a charm every 3 meshes.

---

### ★ Step 3/4

If this is the first time you've opened and closed rings, take a look at our data sheet: [How to open a ring to make a piece of jewelry?](#)

---

### ★ Step 4/4

To fasten the bracelet around your wrist, adjust the extension chain to the desired length.
