What to do with Murano pearls

Here's an idea for earrings using Murano pearls. Murano beads are glass beads that have been made in Italy on the island of Murano for centuries. They are handmade, artisanal beads. Each bead is therefore unique. The beads we chose for our jewel are a pretty green tending towards turquoise. Inside, a gold leaf embedded in the glass gives the pearl a metallic appearance. These pearls are a perfect match for Aventurine natural stone beads. To set them off, I chose a highly original pair of creoles. They're made of 3 golden stainless steel wires. On the central wire, we'll hang the Murano pearl, and on the other two wires, we'll place charms made with Aventurine pearls and small sequins. The overall effect is both contemporary and bohemian.

Stainless steel is highly resistant to oxidation. It's the perfect choice if you want to create long-lasting jewelry at a lower cost than gold filled or gold plated. However, it is a very hard metal. You'll need special cutting pliers to recut your stainless steel nails. Conventional pliers can cut these studs, but the cutting edge of the pliers will be damaged.

To make these Bohemian earrings with Murano pearls, you'll simply need to learn how to open and close joining rings and form a loop on a stud to create charms. These are two basic techniques when you're just starting out in the world of costume jewelry. Feel free to use our videos to help you achieve these techniques. If you're a beginner, you can also take our free beginner's jewelry course, open to all. In 5 episodes, you'll learn the basics of jewelry assembly. Start with the first episodes of the summer season.

At the bottom of the page, you'll find the silver version and other pearl colors in the product variations section.

Which material to use for Cresles with Murano pearls and Aventurine?

SUPPLIES

Jumpings open 5x0.7mm 316L gold-finished stainless steel x10
Ref. : ACC-736
Quantity : 1

24mm 304 stainless steel 3 wires hoop earrings - Gold x2
Ref. : ACX-574
Quantity : 1

8mm Round Murano bead - Aquamarine and gold leaf x1
Ref. : MUO-527

Beads Faceted round beads 4 mm Green Aventurine x20
Ref. : SP-557
Quantity : 1

4mm Stainless steel 304L Medal charms to engrave - Gold x10
Ref. : STL-197
Quantity : 1

35x0.7mm 304L Stainless Steel Ball pins - Gold x10
Ref. : STL-255
Quantity : 1

SUPPLIES

14cm Round tip spring pliers - ergonomic handle by Perles&Co - Blue x1
Ref. : ATT-594
Quantity : 1

Xuron Cutting pliers Memory wire shears
Ref. : OUTIL-026
Quantity : 1

Pince ronde manche pailleté
Ref. : OUTIL-134
Quantity : 1

steps

★ Step 1/4

Thread the Murano pearl onto a ball-headed nail. Recut the nail to within 1.5 cm of the pearl hole. Use special memory wire shears to avoid damaging your traditional wire cutters, as stainless steel is very hard.

★ Step 2/4

Bend the nail at right angles just past the pearl hole. Next, form a large loop with round-nose pliers by catching the end of the nail with a wide part of the round-nose pliers, then turning the pliers.

★ Step 3/4

Pass your Murano charm over the center wire of the creole, then close the loop.

★ Step 4/4

Repeat the above steps to make the other charms. On each thread on either side of the center thread, there's an aventurine bead framed by two round sequins. The round sequins are attached with open rings.
