steps

★ Step 1/6

To begin, cut a piece of chain approximately 11 cm long. Take a crush pearl and crush it with flat-nose pliers at the end of the chain. You can leave a few links sticking out to make the effect more attractive.

★ Step 2/6

Next, string 3 gold rocailles beads, 3 burgundy rondelle beads, 1 olive briolette and then again 3 burgundy rondelle beads and 3 gold rocailles beads.

★ Step 3/6

Then take a small ring and open it with your pliers. Pass the chain through the inside of the ring and then through the first hole in the stud.

★ Step 4/6

Then take a small ring and open it with your pliers. Pass the chain through the inside of the ring and then through the first hole in the stud.

★ Step 5/6

For the 3rd strand of pearls, you can cut a piece of chain approximately 7 cm long. Repeat step 1, then string 5 gold seed beads, 1 black pear bead, 2 gold seed beads, then again 1 black pear bead, 2 gold seed beads, 1 black pear bead and 5 gold seed beads. You can repeat step 3 to attach the row to the ear stud.

★ Step 6/6

String the beads for rows 4 and 5 in the same way as you did for rows 1 and 2, to achieve a symmetrical result. Do the same for your second earring.
