How to make a vintage gold mesh bracelet with cameo and moon charms?

December is here, and with it the magical glow of our new Bal d'Hiver collection. As part of Chapter 2, I'm delighted to invite you to discover the first piece of jewelry in this collection: a delicate, romantic bracelet, perfect for illuminating your parties and elegant evenings.

In this tutorial, I'll guide you through the making of a refined, bespoke piece of jewelry, combining a gold chain with fancy links and unique charms. This vintage bracelet includes a turquoise cameo, a round sparkling gemstone charm and a moon charm, a symbol of femininity and mystery. To top it all off, a heart-shaped T-clasp adds a soft, elegant finishing touch. This jewel is sure to catch the light and catch the eye.

The moon charm adds a precious, refined dimension to the creation. This symbol of the moon, often associated with wisdom and intuition, makes this bracelet not only beautiful, but full of meaning.

This tutorial lets you fully express your creativity by personalizing every detail of your jewel. You can vary the charms, choose gemstones in hues that enchant you and even modify the length of the chain to create a bracelet that perfectly reflects your personality. Alternatively, opt for a ready-made rectangle mesh bracelet, which you can personalize with your favorite charms. Why not make two bracelets? One for yourself, the other to give to a friend or loved one, adding a charming personal touch to the festive season.

Once your bracelet is finished, don't forget to share it with us on social networks by mentioning @perlesandco.

With all my affection,

Lady Perlington

Which material to use for Vintage gold mesh bracelet with charms?

SUPPLIES

Ref. : ATT-837
Quantity : 1

Jewel Glue Hasulith 30ml
Ref. : OUTIL-007
Quantity : 1

steps

★ Step 1/7

Measure your wrist or that of the person you're giving the bracelet to, then cut the chain to the desired size (here 14 cm). Cut the chain at the rectangle link, or remove a rectangle link to attach a ring directly to the full link, depending on the desired length.

★ Step 2/7

Apply a thin layer of Hazulith glue to the center of the seam.

★ Step 3/7

Apply gentle pressure to glue the cameo to the crimp. If any glue spills over, use a clean tissue to gently wipe off the excess. Leave to dry for 24 hours to ensure a secure, solid bond.

★ Step 4/7

Hook the heart-shaped part of the clasp onto one end of the chain with an open ring.

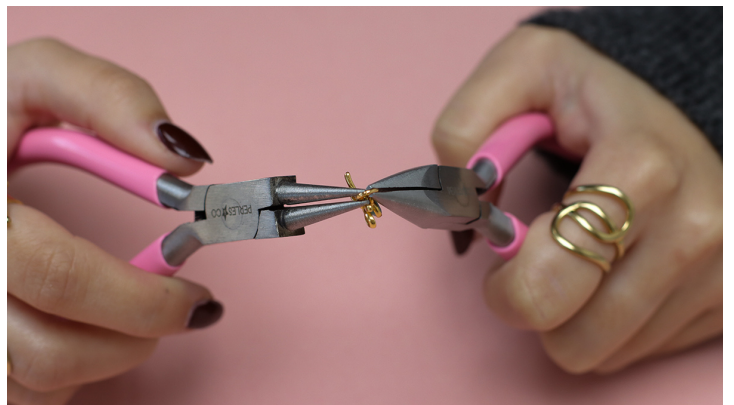

★ Step 5/7

Then attach the "T" part of the clasp to the other end of the chain, also using an open ring.

★ Step 6/7

Attach each charm with an open ring, using round-tipped and flat-tipped pliers. Arrange the charms every 2 or 3 links, depending on the length of the chain and your personalization preferences.

★ Step 7/7

Remember: To care for your gold-plated brass jewelry, avoid contact with water and chemicals. Store them in a dry place and protect them from scratches. To preserve their shine, clean them gently with a soft cloth.
