Which earrings for the holidays?

My dear elegant ones,

The holidays are fast approaching, and with them, the perfect opportunity to embrace all that glitters, sparkles and enchants. If you're looking to add a touch of timeless glamour to your outfits, let me tell you about large crystal earrings, those wonders that light up your face and enchant your style.

Imagine an evening of dancing, with the lights reflected in the faceted crystals of your handmade earrings. My favorite earrings of the moment? Vintage stud earrings in gilded stainless steel, embellished with pearly cabochons. I suggest matching these studs with beautiful rectangular aquamarine crystals. These European-quality crystals have an incomparable brilliance. Suspended from these golden studs, they recall the splendor of the old days: balls, feasts and hand-sewn dresses.

The charm of these buckles lies in their ability to enhance any outfit. Pair them with a sober black dress for an "Old Hollywood" effect, or dare to wear them with a velvet or satin skirt for a festive look. These jewels are the perfect allies to brighten your face and start the New Year in style.

As for the darker, more discreet blue earrings, they're just as suitable for a dance party as they are for a more sober dinner party. These Aurora brand crystals are the perfect way to shine without weighing down your purse.

Reasonably priced, the earring set costs just over ten euros, as does the emerald green version.

Why settle for the ordinary when you can shine so brightly? Large crystal earrings are much more than an accessory: they're a promise of splendor and confidence. Put them on, and get ready to captivate your audience. Whether it's a chic New Year's Eve party or an evening of dancing, these jewels will accompany you with radiance, worthy of the most beautiful style icons.

Let the magic happen and wear your crystals with pride.

Yours sincerely,
Lady Perlington

Ref. : OTL-580
Quantity : 1

Jewel Glue Hasulith 30ml
Ref. : OUTIL-007
Quantity : 1

steps

★ Step 1/3

For these Deep Blue Crystal Earrings, you'll need two SERTI-397 oval crimps, two WST-487 Capri Blue oval crystals, STL-579 gold-plated stainless steel quilted-effect studs, ACX-112 open hoops and Hasulith glue. Start by connecting the studs to the crimps using the connecting rings and two jewelry pliers. To find out more about the correct way to open and close a ring, click on the link to watch a video on this technique. Glue the crystals into the crimps, applying a small amount of glue to the inner surface of the crimp. Place your crystals. Wipe off any excess glue with a piece of paper towel. Do this before the glue dries.

★ Step 2/3

To make the green crystal earrings, choose two SERTI-397 oval settings, two WST-571 Emerald-colored oval crystals, STL-102 gold-plated stainless steel studs and Hasulith glue. There's no need for open rings, as the earrings already have open rings soldered to the back. Repeat step 1 to make the earrings.

★ Step 3/3

Add to your basket two SERTI-725 settings, two WCB-852 European rectangular crystals, vintage SST-001 studs and Hasulith glue. As with the green model, you don't need open rings. The steps are identical.
