steps

★ Step 1/5

Using wire cutters, **cut 25 cm** of chain, removing the necessary links.

★ Step 2/5

Thread one end of the wire with a bead and an open ring. Pass the thread back through the bead to be crushed, tighten and crush it with pliers. Remember to hide excess thread by passing it through a few beads. Place a bead cover over the bead to be crushed and tighten with pliers. Repeat the operation on the other side of the wire.

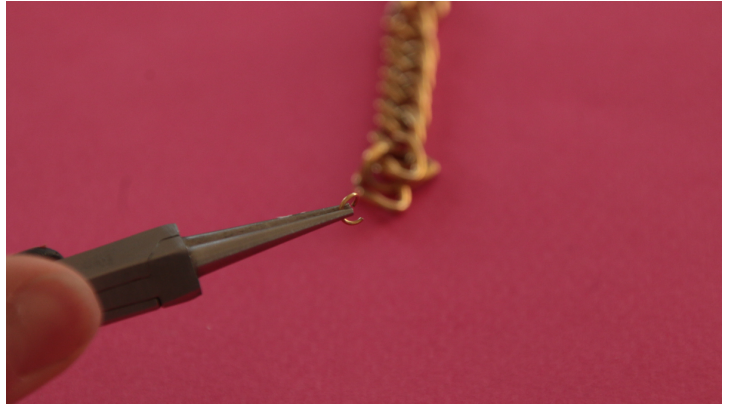

★ Step 3/5

Open a ring and attach the butterfly pendant. Close the ring.

★ Step 4/5

Then, on one side of the chain, open a 0.6 mm ring, slip it into a mesh and add the lobster clasp. Close the ring.

★ Step 5/5

On the other side, open a final ring and thread it through the chain and pendant ring to connect the beads and chain. Close again.
