How to make a beaded bracelet with a noose?

Looking for a simple tutorial to make a beaded bracelet with a sliding knot? This project is the perfect way to get started in DIY jewelry-making, and you can customize this beaded bracelet to your heart's content! For this model, I chose Jasper beads, also known as African Turquoise. I really like the mix of turquoise and brown, I think it gives a warm look that goes with lots of outfits. It's a great choice if you want to create a natural stone bracelet. I used leftover African turquoise beads from this tutorial: [Thin bracelets with African turquoise beads](#) and gold-plated stainless steel. It might be a good idea to use this as inspiration too, to create a pretty accumulation of beaded bracelets.

Many of the beads used in this DIY bracelet can be reused in other tutorials:

- Miyuki Delica beads can be used to weave bracelets, but also to make this type of [fine beaded bracelet](#).
- Tila beads can be used to make trendy [rectangular beaded bracelets](#).
- Micro Spacers gold-plated beads are very strong golden beads. I've already used them to weave [gold drop earrings](#), which you really liked. In this bracelet tutorial, however, we're going to use the whole pack of beads. You'll be left with just one bead, which you can put in the middle of a thin bracelet to go with the bracelet in this tutorial, for example.

The sliding knot is an easy technique to learn. It allows you to adjust the bracelet to any wrist size, without the need for a clasp. It's particularly useful if you're new to jewelry-making. If you want an even simpler sliding clasp than the noose, you can opt for a stopper bead instead. This is a bead with a silicone washer inside to prevent the wire from slipping too easily. You'll find them in the variation section of the equipment list.

Which material to use for Two-row bead bracelet with noose?

SUPPLIES

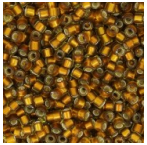

4.4x3.3x0.8mm Oval Open Jump Rings - European-made -fine Gold plated x50
Ref. : ACC-322
Quantity : 1

0.4mm C-LON Fine Weight Bead Cord - Chestnut x45m
Ref. : C-LON-078
Quantity : 1

Miyuki Delica 11/0 DB0762 - Matte Opaque Dark Cream
Ref. : DB-0762
Quantity : 1

Miyuki Delica 11/0 DB1682 - Silver Lined Glazed Dark Honey x8g
Ref. : DB-1682
Quantity : 1

Miyuki Delica Duracoat 11/0 DB1832 - Galvanized Gold
Ref. : DB-1832
Quantity : 1

Miyuki Half Tila Beads 5x2.3x1.9 mm HTL-592 - Antique Ivory Pearl Ceylon x10g
Ref. : HTL0592
Quantity : 1

11x8.5mm Mini filigree heart charm - Fine Gold-plated x1
Ref. : LTZ-676
Quantity : 1

Round faceted 3 mm gemstone beads - African Turquoise - Jasper x39cm
Ref. : SP-969
Quantity : 1

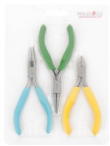

Czech Glass beads Micro Spacers 2x3 mm Gold Plated 24 karats x25
Ref. : TCHE-406
Quantity : 1

SUPPLIES

6.4cm Stainless Steel Collapsible eye beading needle - Extra fine x4
Ref. : ACC-934
Quantity : 1

Kit of 3 Pliers professional quality for jewelry - Chain nose pliers, Cutting pliers, Round nose pliers

Ref. : OTL-580

Quantity : 1

Wildfire - Thread burner pen x1

Ref. : TECH-088

Quantity : 1

steps

★ Step 1/6

Cut a length of thread equivalent to 3 times your hand circumference. Cut this length into two pieces. Put a clip on the end of the thread or tie a temporary knot to prevent the beads from falling off. Thread the thread onto a soft eye needle.

★ Step 2/6

Thread a golden Miyuki Delica bead, 5 cream beads, 1 Honey bead, 1 golden miyuki bead, 1 Honey bead, 5 cream beads, 1 golden miyuki bead, 1 African turquoise bead, a golden Miyuki Delica bead, 5 cream beads, 1 Honey bead, 1 golden miyuki bead, 1 Honey bead, 5 cream beads, 1 golden miyuki bead, 5 African turquoise beads, 1 golden micro-spacer, 1 African turquoise bead, 1 Half Tila bead, 10 golden micro-spacers. Repeat threading in reverse order. Adjust the number of Delica beads to your wrist size. Make a temporary knot on the other end.

★ Step 3/6

Repeat steps 1 and 2 with the other end of the thread. When threading a Half Tila, pass the first beaded thread through the second hole in the Half Tila.

★ Step 4/6

Center the beads and tie knots on each side to lock them in place.

★ Step 5/6

Cut a further 20 cm of thread. Cross the bracelet wires in pairs. Tie the small piece of wire to the four wire ends. Tie a 6-10 mm slip knot. This is a macramé overhand knot. Cut the ends of the overhand knot at 2 mm from the knot and melt them to bond them to the knot.

Step 6/6

Adjust the length of the bracelet by testing it on your hand. It should be easy to put on. Center the knot. Undo the temporary knots at the beginning. Thread three golden beads onto each piece of wire. Tie a new knot closer to the overhand knot. Recut the wire to within 2 mm of the knot and melt it. Do the same for the other three wires.
