How to weave a pendant with glass beads?

What could be better than handmade DIY jewelry? Get out your best needles, because our partner Les perles par Puca® is offering a new tutorial to coincide with the release of its new cabochons. This tutorial is at an intermediate level, but if you're a beginner in bead weaving you can reproduce the pendant yourself, just follow the step-by-step diagram.

The glass look of the cabochons and the shape of the Konos® will enable you to create a pretty fancy pendant. For this tutorial, our partner has opted for green and gold, but to make it more unique and to your liking, you can choose colors you like from those available on our site. This pendant is perfect if you pair it with more discreet jewelry and want to give a touch of sparkle to your sober outfits.
