*How to create a bracelet with glass beads?*

To celebrate the arrival of the new Lipsi® range of beads on our site, our partner Les Perles par Puca® offers you a new tutorial: discover how to make the Vogue® bracelet.

This tutorial is aimed at intermediate level designers, but if you're just starting out in bead weaving, it's perfectly possible to reproduce it, as the pattern is quite accessible, just make sure you follow each step. Be sure to take a look at the pattern for the Le petit Malin® pencil case, also published for the Lipsi Vogue® beads.

In this tutorial, our partner uses mauve and golden Seed beads, but you can personalize this fancy glass bead bracelet by choosing other bead colors from those available on our website. There are two variations in the pattern: one yellow and the other pink, so suit your taste!

You can wear this bracelet with a pretty spring outfit, or pair it with another piece of jewelry in this style if you're a fan of Puca® tutorials.

Download the pattern here: Vogue bracelet by Puca®.

We love seeing your creations, so if you reproduce the Vogue® bracelet, don't hesitate to share it with us on social networks with #Perlesandco or by mentioning us!

NB: for reasons of stock, it is possible that the list of materials has been modified and that certain products have been replaced by equivalents.
