How do I put charms on a bracelet?

Dive into the world of ultra-simple DIY jewelry with this tutorial for creating a marine-themed charm bracelet in 925 Sterling Silver. This bracelet brings together the two trends of the year: charms and marine jewelry. These are two themes for which we love making DIY tutorials. So don't hesitate to take a look at these categories, where you're sure to find what you're looking for!

Charms bracelets are a must-have in jewelry boxes this summer. And even in terms of DIY jewelry, they're ultra-simple, infinitely customizable, allowing you to compose a unique piece of jewelry by combining symbols that have meaning for yourself or as a gift. For this one, I chose the marine theme because it's a strong trend: perfect for summer with its natural colors and inspiration from the deep. Shells, corals, stylized fish or minimalist anchors poetically invite themselves onto wrists.

925 Sterling Silver, a precious and durable metal, brings a touch of superior quality to your creations. Used since the dawn of time, silver is highly prized in jewelry for its brilliance, affordability and flexibility. In this detailed tutorial, you'll learn how to assemble the elements, attach the rings, and personalize your bracelet with the right tools.

Whether you're a beginner or an enthusiast of handmade jewelry, this project is accessible to all and requires very little equipment. Feel free to personalize this bracelet even further with other 925 Sterling Silver charms, of which we have no less than 800 in our catalog. Enough to make an army of pretty bracelets!

Which material to use for 925 Sterling Silver Marine Charms Bracelet?

Ref. : ATT-837
Quantity : 1

steps

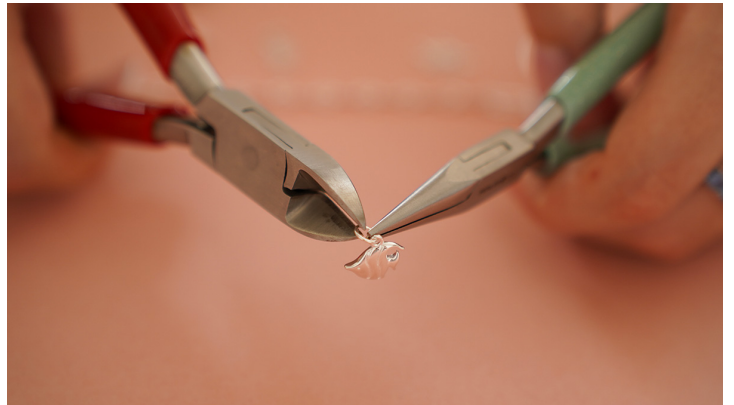

★ Step 1/3

Take your bracelet and charms and choose the order in which you'll arrange them.

★ Step 2/3

For the fish charm with ring (SIL-304), take a pair of wire cutters and cut one edge of the ring. If you have an open ring, you can open it and pass it over a bracelet link.

★ Step 3/3

Hang all the charms with a ring on each chain link. Space them one link apart and make sure they're on the same side. Once you've done this, your bracelet is finished.
