How to create an autumn charms necklace with original charms?

With back-to-school and autumn just around the corner, there's nothing better than a charms necklace to sublimate your seasonal outfits. In this tutorial, I'll show you how to create a piece of jewelry that's both elegant and lively, using a variety of charm themes and contrasting materials. The idea is to create a charms necklace full of personality, perfect for reflecting your autumn style while staying on trend.

For this project, I chose a 6 mm ribbed Rombo chain in gold-plated stainless steel, which adds strength and shine to your creation. The pendants and charms are carefully selected for their originality and charm: a flower in faceted glass beads, an irregular baroque bead imitating a freshwater pearl, a cowboy boot santiago pendant, a dog charm, a striated heart-shaped key, and more. as well as more original touches such as a croissant, a coffee cup or an epoxy resin scooter. Each element adds a little story and brings your necklace to life.

The aim of this tutorial is to guide you step by step in assembling these different elements into a harmonious and unique piece of jewelry. Even if you're new to jewelry-making, the detailed explanations will make it easy for you to follow each step, from choosing the right arrangement of charms to the final assembly on the chain.

This autumn charms necklace is also a great idea for a personalized jewelry gift, or simply to add an original piece to your collection. Ready to let your creativity flow and create a necklace that captures all the magic of autumn?

Then follow this step-by-step tutorial and transform your charms into a unique and colorful piece of jewelry!

If you reproduce this tutorial, don't hesitate to share your jewelry on social networks by tagging our [Instagram account](#), our [TikTok account](#) or our [Facebook page](#). We'd love to see what you come up with!

Which material to use for Necklace Charms d'Automne en Breloques?

Ref. : SST-990
Quantity : 1

30x0.6mm 304L Stainless Steel Head Pins - Gold Tone x10
Ref. : STL-250
Quantity : 1

steps

★ Step 1/5

Resize the chain to the desired length, using two flat pliers to open the stitches.

★ Step 2/5

Using two pliers, open a ring and slide it, without closing it, into the charm of your choice. By folding the chain in half, calculate where the middle of the chain is located and place your charm slightly to the right or left of it for starters.

★ Step 3/5

For the freshwater bead, slide in a flat-headed nail. Using wire cutters, cut the nail so that 1 cm of wire remains. Then form a loop using round-tipped pliers. You can also refer to our data sheet: [Forming a loop on a jewelry nail or pin.](#)

★ Step 4/5

You can now place all your charms in the order of your choice.

★ Step 5/5

Use two pliers to open and hook a ring onto the last link of your chain. Slide the extension chain through your open ring and close the ring. Add a ring to the other end of the chain.
